

PETRONAS SRT OHVALE Special Series MiniGP

PETRONAS Sepang Racing Team and OHVALE have collaborated in this project of a special and limited series of OHVALE GP-0.

OHVALE GP-0 is year by year becoming popular as the motorcycle for young riders to develop their skills as the correct motorcycles for adults to train and enjoy on tracks.

OHVALE GP-0 is an idea of Valerio Da Lio, an industry expert with an experience of over thirty years in the motorcycle world, who teamed with great men very well known in the motorcycle industry for their extraordinary abilities and high technical ability to create a unique project in the motorcycle field.

All the best components have been put on PETRONAS SRT OHVALE Special Series MiniGP, a unique version of OHVALE GP-0 motorcycle produced in only 46 units in 2021.

OHVALE GP-0 160cc SPECIAL PSRT EDITION

Features:

LIVERY

PSRT Livery with winglets, supplied by Alex Design, the same company that paints the team's MotoGP motorcycles. This gives an exceptional authenticity and exclusivity to this special product.
